DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-8, drawn to platen press, classified in class 100, subclass 270.

Group II. Claims 9-15, drawn to method of operating a platen press to create an impression force, classified in class 100, subclass 42

The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed (Group I) can be used to practice another and materially different process such as communuting various substance, for example rocks, whereby establishing contact between the first and second platens is not necessary.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to the Attorney of record, Jeramie J. Keys on November 13, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3725

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
